

College Host To W. N. Y. Chemists

Visitors See New Horan- O'Donnell Science Hall

On Tuesday, December 9, Canisius College played host to the Western New York Section of the American Chemical Society.

At a reception at 6:00 P. M. in the Chemistry Library, Father Timothy J. Coughlin, S.J., President of the College, met Mr. Wilmer H. Koch, chairman of the Section, and the chairmen and members of the various committees of the organization.

After the reception the visitors were shown the classrooms and laboratories of the Horan-O'Donnell Science Hall by Father T. Joseph Brown, S.J., chairman of the Department of Chemistry.

Dinner in Cafeteria

Following this, dinner was served in the cafeteria to seventy members of the Section and their guests, among whom were Father Coughlin, Father John P. O'Sullivan, S.J., Dean of the College, and Father William J. Schlaerth, S.J., Regent of the Graduate School.

The guest speaker was Father Francis W. Power, S.J., assistant professor of Analytical Chemistry

and Microchemistry at Fordham University, who spoke at the close of the dinner on "Methods and Applications of Microchemistry".

Dr. Boord Speaks

At a public session at 8:30 in the auditorium, Dr. Cecil E. Boord lectured on the "Synthesis of Pure Hydrocarbons and the Relations of their Physical Constants to Molecular Structure". At the close of Dr. Boord's talk many members remained to hear President Roosevelt's radio address.

As a result of the evening's meeting, members of the chemistry faculty received congratulations for the cleanliness of the excellent equipment of the chemistry laboratories and for the pleasant evening which was spent at the College.

Members of the Section were unanimous in deciding to return to the College for future meetings and plans are being made to that effect.
