

Student Earns Science Prize

William Stevens, Canisius College Freshman, has been presented with the Chemistry Achievement Award given by the Chemical Rubber Co., of Cleveland, Ohio. It is given in recognition of the fact that Bill obtained the highest average for the first semester in Chemistry 3-4.

This award consists of the latest edition of the "Handbook of Chemistry and Physics," which is a publication of the company. The book is marked with the following inscription: "Achievement Award, First Term—1949, Freshman Chemistry at Canisius College."
