

Industries Schedule Senior Interviews

Arrangements have been made by the Personnel Office to have representatives of various companies in this locality and throughout the nation visit Canisius in the near future for the purpose of conducting on-campus employment interviews with members of the Senior Class. A few of the organizations scheduled thus far include the Linde Air Products Company who will visit Canisius on February 20. This organization is interested in Chemistry and Physics majors only.

Interest Shown

On February 17, representatives from the Firestone Tire and Rubber and Remington Rand companies will be present at Canisius. These organizations are interested in students who wish to explore possibilities in sales, office management and allied positions.

Several other companies, while unable to visit the campus at this time, have expressed a definite in-

terest in Canisius students. Among these are: American Brass; Corning Glass Works; Merrill, Lynch, Pierce, Fenner & Beane; United States Steel; All State Insurance; Household Finance and Colorado Fuel and Iron, to mention a few. Check with the Personnel Office for future arrangements, dates and time.

The faculty, student body and *Griffin* staff extend deepest sympathy to Joseph Weiss, Senior Business, on the death of his mother, and to William and John Morrissey, Business Majors, on the death of their father.
